

Harsha Kalyan

Senior Cloud Software Engineer

harshakalyanaraman@gmail.com | (857) 800-5215 | linkedin.com/in/khvr | github.com/khvr | khvr.github.io | Chicago, IL

Results-Driven Cloud Software Engineer, leveraging 3+ Years' Expertise in Scalable Cloud Systems, and RESTful Services, Certified in Kubernetes and AWS solutions architecture. Proficient in Azure, specializing in back-end development, and possessing strong communication skills. Background in Computer Science with expertise in Linux-based systems.

Skills

- | | | | |
|----------------------------|---------------------------|-----------------------------|------------------------|
| • Container Orchestration: | Kubernetes, Docker, Helm | • Security: | HCP Vault, AWS KMS |
| • Infrastructure as Code: | Terraform, Pulumi | • Monitoring and Logging: | Prometheus, Grafana |
| • CI/CD: | Jenkins, GitLab, CircleCI | • Scripting: | Bash, Python |
| • Cloud/ virtualization: | AWS, GCP | • Programming Languages: | Python, JavaScript, Go |
| • Messaging Systems: | Kafka | • Version Control: | Git, GitLab, GitHub |
| • Agile Methodologies: | Scrum, JIRA | • Configuration Management: | Ansible |

Experience

Senior DevOps Engineer Ubiety Technology Inc. | Chicago, Illinois July 2020 - Present

- Led cross-account Kubernetes implementation on GKE and orchestrated CI/CD setup, achieving seamless Kubernetes deployment and CI/CD integration across accounts.
- Strategically transformed AWS account structure, partitioning into three accounts and executing seamless data migration, resulting in efficient data transition and enhanced account performance.
- Empowered robust security by migrating sensitive credentials to HashiCorp Vault, integrating with GitLab CI for fortified security measures and reliable CI/CD pipelines.
- Pioneered cost-effective monitoring with a consolidated Grafana dashboard aggregating metrics, yielding annual cost savings of \$10,000 and reducing incident response time by 40%.
- Contributed to architecture reviews by providing valuable insights and prioritizing scalability, performance, and security considerations, leading to optimized system architectures aligned with business goals.

DevOps Engineer Ubiety Technology Inc. | Chicago, Illinois June 2021 - June 2023

- Directed the development of reusable Terraform modules for AWS services, standardizing infrastructure components for heightened maintainability and version control, resulting in 50% faster infrastructure updates.
- Guided transition from monolith to agile microservices architecture via Kafka consumer model on ECS, reducing operational complexities by 40% and improving response times by 30%.
- Innovated cost-effective CI/CD enhancement through custom GitLab runners with AWS Spot instances, achieving an 80% cost reduction while maintaining high-performance standards.
- Implemented an optimized internal access solution through a dedicated CLI tool and fortified private bastion utilizing AWS SSM, resulting in a decrease of unauthorized access incidents and enhancing operational efficiency by 40%.
- Drove streamlined load testing and QA automation by developing automated scripts with K6, validating system performance across diverse workloads, and automating QA procedures, leading to a 50% reduction in testing duration.
- Enhanced team efficiency through comprehensive training in Agile and DevOps principles, resulting in streamlined workflows and faster development cycles.

Cloud Architect BitOGenius | New York City, NY Jan 2021 - May 2021

- Configured fault-tolerant Cassandra clusters, ensuring robustness and reliability, resulting in uninterrupted gaming services.
- Enhanced user experience in gaming scenarios by optimizing Cassandra and Redis, ensuring smoother interactions and reduced latency.
- Introduced Go Lang for cloud apps, significantly improving performance and resource utilization for efficient microservices on EC2.

Education

Master of Science in Computer Systems, Northeastern University Boston, MA	GPA: 3.5/4 Graduated Dec 2020
Bachelor of Science in Electronics and Communications, SRM University Chennai, TamilNadu, India	GPA: 3.6/4 Graduated May 2018

Certifications

- Certified Kubernetes Application Developer (CKAD) Aug 2023 - Aug 2026
